

**Remarks**

Responsive to the Examiner's request to correct, as a formal matter, the omission of the "Brief Description of the Drawings", such section is now provided in the amended specification.

Since prosecution on the merits is closed under Ex Parte Quayle, the application is now in condition for allowance, and an early action passing this case to issue is courteously requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Bernard Lieberman", written in a cursive style.
